

Greetings Parents,

As the summer has quickly approached us, we ask that you encourage our students to maintain their academic skills in tune. This summer, the Department of Mathematics/Office of Instruction has developed lessons to target student academic growth and maintenance. All students in grades K-12 will be assigned with lessons on their student portal which will serve beneficial in maintaining skills learned throughout the year.

These i-Summer Programs consist of ***i-ready, Gizmos, and Reflex***. Students are to complete at least 2 lessons weekly. Students are to log (see attached) the lesson, the score and parents are to sign the completion of the passed lessons weekly. All students will earn a grade for the completed lessons the first week of school.

Have a wonderful summer and we look forward to seeing you in the fall.
